

ECF FAQs

How much will you charge to deliver our ECF?

Nothing

We have really benefitted from working with a teaching school at which we are a paid member. Can we continue this relationship?

Yes, definitely. The TSH is adding capacity and coordination. It is not a complete alternative. Current teaching schools may be losing their designations but they are not losing their skills.

Can the TSH provide us with appropriate body (AB) services?

Yes. This will be a two year service with a commitment to keep costs to a minimum.

Do we need to deliver ECF to our ECTs alongside mentor training?

The TSH can do this for you for free.

Will there continue to be a charge for NPQs and CPD?

Yes, but we are awaiting information from the DFE on NPQ bursaries. Alongside our key partners, we will be offering a discounted membership package which will include offers on networks, moderation and other CPD, and bespoke support packages for secondary schools.
