

Support on Steplab

For help and 'how to's' in steplab, first click on the 'support' button you can see on the menu on the main page. Then choose which role you are.

The screenshot shows the Steplab homepage. On the left sidebar, the 'Support' button is circled in red. In the main content area, under 'Browse topics', three items are highlighted with yellow boxes: 'Help for Coaches', 'Help for Learners', and 'Help for Leads'. Green arrows point from these items to three separate boxes containing the text: 'If you are a', 'If you are an ECT', and 'If you are an induction tutor'. The 'Knowledge base article' on the right is titled 'Welcome!' and provides instructions on how to use the Steplab Knowledge Base.

From there you will be able to select from a drop down menu and a video will play explaining how to use steplab as well as some helpful hints underneath.

The screenshot shows the Steplab homepage with the 'Support' button circled in red. A green arrow points from the 'How to Observe a lesson' article in the 'Knowledge base article' section to the 'Help for Coaches' item in the 'Browse topics' list. The article itself is titled 'How to Observe a lesson' and includes a video player and a list of bullet points: 'Observe your teacher once a week', 'Give them feedback during the same week as you observe', 'Carefully script your feedback during the lesson, so that you capture everything you want to share', and 'Give your teacher feedback every single week: little regular changes make a big difference!'.
